

Guide to Blogs

- Go to my school website: www.scuc.txed.net/webpages/gblair
- On the left side, click on “My Blog”
- You may need a password to logon. The password is “dcush”.
- Read the Posting information at the top of the page.
- At the bottom of the posting, you will find two links: “comment” & “view comments”.
- View Comments: Read any previous comments to see what everyone else has written. The idea is to build on the ideas of those before you or to discuss their thoughts. Think of this as a conversation. You can agree or disagree, or start a completely new idea about the topic. Just be considerate & polite.
- Comment: Type your thoughts in the space provided. Sign your blog with your first name followed by your student id number. (Example: Mine would be George00041) Be sure to save your comments.
- Grading: There is no correct answer here. I am looking for your thoughts. Obviously, if you don't show very much thought, then you won't see very much grade. This is one of those activities you can only attempt once. If you don't submit your blog by the deadline, you will receive a zero.
- When you are done, be sure to log out of the blog.
